modern aesthetics

Renault Kwid commands attention wherever it goes. This compact car has revolutionised the segment with its urban yet athletic design, aerodynamic shape, and dual tone finish.

With a stylish front grille, chrome accents, signature LED headlamps*, silver streak LED DRLs, and dual tone flex wheels, Renault Kwid exudes a bold look.

9 advanced driving assistance systems

As part of the human first program and in compliance with BS6 step 2* norms, Renault Kwid is equipped with nine innovative advanced driving assistance systems.

electronic stability program
Automatically corrects your car's trajectory so you avoid dangerous skids.

reverse parking sensors
Ultrasonic sensors in the rear bumper measure the distance between the vehicle and an obstacle.

traction control system
Limits wheel slip during starting, acceleration and braking.

airbag
Provides crucial protection by minimising the impact of collision.

hill start assist*
Maintains brake pressure for two seconds, preventing rollback when you move away on a steep slope.

tyre pressure monitoring system
Displays the tyre pressure status in real-time with a pictogram on the dashboard.

driving assistance

- ABS + EBD
- electronic stability program
- dual airbags
- traction control system

security assistance

- brake assist
- tyre pressure monitoring system
- load limiter + pretensioner (driver only)

parking assistance

- reverse parking sensors

*hill start assist available in Easy-R versions only

the human first program is a comprehensive safety program developed by Renault in collaboration with researchers, experts and fire-fighters.

because road safety is the business of all road users - be they pedestrians, cyclists or motorists - the human first program by Renault undertakes to:

- 1. prevent accidents by developing safety equipment and advanced driving and safety assistance systems**

up to 36 advanced driving assistance systems / more than 60 safety systems, up to 7 airbags, child seats (ISOFIX), Renault's Fixe4sure solution / more than 2 000 safety-related patents filed since 1970

- 2. reduce the number of accidents and their severity by investing massively in R&D**

safety score / safety coach / connected services / big data / artificial intelligence and cybersecurity systems
