04. advanced driving assistance systems

9 advanced driving assistance systems

As part of the human first program and in compliance with BS6 step 2* norms, Renault Triber is equipped with nine innovative advanced driving assistance systems.

new electronic stability program
Automatically corrects your car's trajectory so you avoid dangerous skids.

rear parking sensor
Ultrasonic sensors in the rear bumper measure the distance between the vehicle and an obstacle.

new traction control system

Limits wheel slip during starting, acceleration and braking.

airbag

Four airbags offer* increased protection.

new hill start assist

Maintains brake pressure for two seconds, preventing rollback when you move away on a steep slope.

new tyre pressure monitoring system
The tyre pressure monitoring system displays the tyre pressure status in real time with a pictogram on the dashboard. Always know the condition of your tires.
